#### **©** Objective:

Design a visually appealing and responsive landing page that effectively showcases a product/service, using modern HTML and CSS practices.

#### Steps Performed:

- 1. Defined project goal: visually represent brand and key call-to-action.
- 2. Planned page structure: header, hero section, features, testimonial, footer.
- 3. Wrote HTML layout with semantic tags: <header>, <section>, <footer>.
- 4. Styled with CSS:
  - Hero background image and overlay

- Responsive flexbox/grid layouts
- Consistent typography and color scheme
- 5. Added interactive elements:
  - Hover effects on buttons/links
  - Smooth scroll for navigation links
- 6. Tested responsiveness across desktop, tablet, and mobile.
- 7. Reviewed accessibility: alt tags, contrast, and keyboard navigation.
- 8. Prepared screenshots and documentation for submission.

## X Tools Used:

- HTML5 with semantic elements
- CSS3 (Flexbox/Grid)
- Visual Studio Code (IDE)
- Chrome DevTools
- Git & GitHub for version control

## **Summary:**

- File Structure: index.html, style.css, /images folder

- How to View: Open index.html in a browser
- Notes: No JavaScript used; CSS handles all layout and interactivity

### **Outcome:**

The landing page is fully responsive, visually engaging, and optimized for both desktop and mobile.

All content is easily accessible and provides clear call-to-action for user engagement.
